To Whom It May Concern,

I have been a loyal XM Radio subscriber since close to it's birth in the consumer market and I am extremely pleased with the services satellite radio has given to me throughout its relatively short life. I am a frequent driver of the many busy highways and local streets in and around the Boston area, and I have AND hope to continue to benefit from the new traffic and weather reports I use everyday.

This, and all of the other stations I flip to on a daily basis, are now a part of my life moreso than any stations I have listened to on AM/FM. Since I am a paying customer to XM Radio, I feel that I should be able to receive all the benefits of Satellite Radio that are available to me without complications. Please reject the NAB's petition 04-160 an help XM to provide me with the programming services I pay for and deserve. Thank you.

Sincerely,

Matthew J DiPasquale
